

MACHINE EMBROIDERED QUILT **Sharon Wick**

Featuring the beautiful machine embroidered/appliquéd' designs from *Pictogram Block Party* by Judy Nowicki. Get your machine tuned up and ready to embroider on these stunning quilt blocks over 6 class sessions plus homework. There are 10 blocks approx. 15" each and a center block approx. 30" x 15" in the twin sized version of the quilt. Use of basic editing software is helpful to print out placement templates for the block designs. Your machine must accommodate a hoop size of at least 200 x 145, Viking Mega hoop or Viking Majestic Hoop. The techniques learned in making this quilt can be applied to other machine embroidered quilts, as well. This quilt is very easy to complete as there is no patchwork piecing involved.

Monday, May 3
